THE COMMONWEALTH BUREAU OF PASTURES AND FIELD CROPS

HURLEY, BERKSHIRE

The Commonwealth Bureau of Pastures and Field Crops is one of 10 Bureaux and 3 Institutes which together form the Commonwealth Agricultural Bureaux. The Bureau is located at The Grassland Research Institute, Hurley, and its object is to collect and abstract all published scientific results on annual field crops, grasses, pastures, rangelands and fodder crops, and to circulate these abstracts in its two quarterly journals *Field Crop Abstracts* and *Herbage Abstracts*. The Bureau can provide an extended abstract should fuller information on a paper, or part of a paper, be required.

Over 1000 periodicals and reports from all parts of the world are regularly scrutinized. A list of those examined, together with their abbreviated titles, was published in *Field Crop Abstracts* Volume 17, No. 1.

The Bureau also undertakes the preparation of bibliographies on subjects within its scope.

Photocopies of articles can be supplied at a cost of 2s. per page of text and arrangements can be made for microfilms to be prepared at a charge of 2d. per page to Commonwealth countries and 3d. per page to others.

NOTES TO READERS

Field Crop Abstracts is concerned only with those aspects of agricultural science which are covered by the table of contents. For other aspects, e.g. plant breeding, soil science, plant pests and diseases (other than control), reference should be made to the C.A.B. journals covering those subjects. For abstracts dealing with plantation crops, including sisal, sugar-cane and tobacco, see *Horticultural Abstracts*.

Where † follows the number which appears before a heading, it indicates that the abstract or book review is duplicated in *Herbage Abstracts*.

The locality shown in square brackets at the end of the heading of an abstract indicates where the work was carried out.

The foreign title of any article abstracted in this journal can be supplied on request.

The Executive Council of the Commonwealth Agricultural Bureaux is a signatory to the Fair Copying Declaration, details of which can be obtained from The Royal Society, Burlington House, London, W.1.

The Commonwealth Agricultural Bureaux Organization does not accept responsibility for any trade advertisement included in this publication.
